PROFILE

Product Designer with 4+ years taking digital products from research and strategy through to shipped, tested interfaces. Sole designer on BuzzIQ, a TikTok Shop intelligence platform, owning the full product design lifecycle from UX strategy and information architecture through high-fidelity prototyping, design systems, and post-launch QA. Comfortable owning ambiguity: known for turning a loose brief or a blank page into a coherent product direction, then building the design system that lets a team ship it fast. Integrates AI tools into the design process to move faster and think more systematically, from research synthesis to prototyping.

CORE SKILLS

Product Design, UX Design, UI Design, UX Research, User Research, Usability Testing, Interaction Design, Information Architecture, Design Systems, Design Thinking

Figma, shadcn/ui, Wireframing, High-Fidelity Prototyping, Mobile UI Design, Responsive Web Design

Cross-Functional Collaboration, Stakeholder Management, Agile/Scrum, Async & Remote Collaboration, Quality Assurance (QA), AI-Assisted Design Workflows, Brand Identity, Graphic Design

EXPERIENCE

Founder and Lead Product Designer

PackCommerce – Design Agency, Remote | 2024 – Present

- Founded and run a design agency serving TikTok Shop and Shopify sellers, directing end-to-end product design across web, tablet, and mobile for e-commerce and creator economy clients.
- Client engagement: IGNITEAMZ contracted PackCommerce as sole product designer on BuzzIQ, a TikTok Shop intelligence platform (2025 – 2026). Owned UX strategy, information architecture, visual design, and full responsive web + mobile design end-to-end.
- Built BuzzIQ's design system in shadcn/ui — 30 components, 400+ variants — standardising the product's UI and directly accelerating front-end development velocity for the engineering team.
- Delivered a high-fidelity interactive prototype ahead of development to validate features and de-risk the build, then led post-launch QA across 3+ sprints to ship a polished release.

Product Designer (UI/UX)

Plexus Core – Consultation, Remote | 2024 – 2025

- Designed the product experience for a real-time crash gambling game, directing animation sequencing and sound design decisions to shape an immersive, game-ready user experience.
- Took a bulk SMS platform from information architecture through design handoff, delivering a clean, scalable interface for high-volume campaign management.

Product Designer and Project Manager

US TO YOU Solutions – Full-time | 2023 – 2024

- First in-house designer; built the company's design process and product design practice from the ground up.
- Led research-to-handoff design of a government-grade boda-boda registration system for a Kenya County Government, covering Saccos, bike owners, riders, and loan management.
- Designed a maternal health alert system for Kilifi County, automating vaccine reminders and delivery slot notifications for pregnant women.
